

2026 Canadian Dental Implant Cost Comparison

Advertised market ranges in Canadian dollars for Canada, Turkey, Mexico and Hungary

Turkey showed the lowest advertised full-arch and full-mouth ranges in the reviewed sample. The largest gaps appeared in both-arch treatment, where package inclusions, restoration materials, travel and aftercare can materially change the final cost.

Treatment	Canada	Turkey	Mexico	Hungary
Complete single-tooth implant	CA\$3,000-\$6,000	CA\$1,200-\$2,500	CA\$1,200-\$2,800	CA\$1,100-\$1,900
All-on-4, one arch	CA\$20,000-\$35,000	CA\$5,500-\$12,000	CA\$11,000-\$20,000	CA\$9,000-\$16,000
All-on-6, one arch	CA\$23,000-\$40,000	CA\$7,000-\$14,000	CA\$14,000-\$24,000	CA\$12,000-\$20,000
All-on-4, both arches	CA\$40,000-\$70,000	CA\$11,000-\$20,000	CA\$22,000-\$34,000	CA\$18,000-\$32,000
All-on-6, both arches	CA\$46,000-\$80,000	CA\$13,000-\$24,000	CA\$28,000-\$42,000	CA\$24,000-\$40,000

Key findings

- **Full-arch pricing:** Turkey was lowest in the reviewed sample; Hungary generally fell between Turkey and Mexico.
- **Illustrative midpoint:** one-arch All-on-4 was about 68% lower in Turkey, 55% lower in Hungary and 44% lower in Mexico than in Canada.
- **Single-tooth treatment:** Canada commonly appeared at CA\$3,000-\$6,000 for a completed implant and crown.

Method and limits. Research snapshot: September 17-18, 2026. Publicly available prices from clinics, providers and dental marketplaces were converted to CAD and rounded. These are synthesized advertised ranges, not national averages, guaranteed quotes or clinical quality assessments. Lower price does not establish clinical equivalence.

How to use these figures

- **Compare like with like:** confirm implant brand, abutments, temporary and final teeth, imaging, sedation and grafting.
- **Add the complete trip cost:** include flights, accommodation, transfers, time away from work and return visits.
- **Protect continuity of care:** ask who handles complications and what the written warranty excludes after you return home.
